

End Stage 1 Mathematics – Wake Up – Grade C

Appropriate strategies have been selected and illustrated using diagrams. The recording of numerical expressions is accurate

The pictures have been related to the number sentences and one repeated example has been used

Grade Commentary

Lee has used sound algebraic knowledge to represent the difference between two numbers and create simple subtraction stories. There is evidence of adequate recall and application of knowledge, but the opportunity to demonstrate multi-step or higher-order thinking in the extension activity has not been taken.

This work sample demonstrates characteristics of work typically produced by a student performing at grade C standard.
